

Catamaran Lagoon 450 – Portorosa

• Description

Spaces large and very bright, Stereo system. Outside extraordinary livability: a large aft cockpit with a sofa for more than 10 seats, center table with hard top, sink, cooker and fridge. Central in the extra-large fly bridge. At the bow a sofa with five comfortable seats and spacious sundeck networks. The passages between the stern and bow are wide and fly safe. Besides the four double guest cabins with their own toilets, the crew has two independent cabins with bathroom. Not only a new catamaran model, but a real revolution in the world of catamarans: unknown space until now both above and below deck, thanks brilliant idea to fix the wheelhouse and all its maneuvers above the cockpit, on 'hard Top, releasing a huge living under, mackerel from tops, references and whatnot. How to be on the terrace of a villa on the sea! At the bow not the usual bridge more or less angular, but another cockpit with lots of seating to get another vantage point, where do the classic cocktail at sunset.
