TRAPANI

Il Porto Turistico “Vento di Maestrale”, una piccola marina attrezzata e funzionale, si trova proprio di fronte l’imboccatura del porto di Trapani. Una posizione privilegiata, sia per la vicinanza dei servizi offerti dal porto che per la facilità di accesso al centro storico della città di Trapani, con le sue bellissime Chiese, i suoi vicoli caratteristici, i ristoranti tipici, le spiagge e le calette balneabili.

I nostri pontili, posizionati al riparo dai venti e dalle correnti in modo tale da garantire sicurezza e confort a prescindere dalle condizioni meteo-climatiche, sono tutti dotati di colonnine attrezzate multifunzione, per l’erogazione di acqua e luce. Il fondale raggiunge una profondità massima di 3,30 metri. Sono disponibili anche posti barca a secco, ideali per gommoni e piccole imbarcazioni a motore.

The marina also offers services of various kinds, specially designed to guarantee an excellent welcome and a pleasant stay: from the bar to the minimarket, from the toilets to the showers, from the security guard 24 hours a day (with video surveillance) to the transfer service to / from airports and other locations, from bike rental to wi-fi internet.

Mistral wind is the ideal choice for short transits or long stops, from which to start and / or leave at a time for the most beautiful and evocative destinations of the Mediterranean and western Sicily: the Egadi Islands (Favignana, Levanzo and Marettimo), Pantelleria, Ustica, San Vito lo Capo, the Zingaro Reserve, Catellammare del Golfo, Marsala, Menfi, Lampedusa, the North African coast, etc.

Here is a summary of some useful information:

Coordinats: 38° 00’,53 N – 12° 29’,58 E

Accesses: All units (fishing and recreational units included) equipped with VHF equipment to communicate via radio (CH 16 and CH 10) to the VTS center of the Trapani Port Authority to be approached for entry into the port of Trapani or about to start the unmounting maneuver for the next exit. The units approaching the port of Trapani will have to call at least 1 mile before entering the port. The outgoing units will have to make the call immediately before starting the unmounting maneuver. Furthermore, sailing within the port is prohibited.

Headlights and lights: 3138 (E 1970) - beacon with white flashes, period 5 sec., Range 12 M, on the Scoglio Palumbo; 3138.2 - red-light isofase light, period 2 sec., Range 8 M, in the tower of the previous lighthouse (visible from 131 ° to 176 °, on shoals Balata and Balatella); 3150 (E 1976) - headlight with red flashes, period 3 sec., Range 8 M, on the head of the Molo Foraneo (Molo della Colombaia); 3151 (E 1979.2) - light with red flashes, period 6 sec., Range 4 M, at the end E of the reef of the fishing port (visible from 073 ° to 023 °); 3153 (E 1979.4) - light with green flashes, period 4 sec, range 3 M, on the western end of the cliff of the tourist landing (obscured from 275 ° to 017 °); 3154 (E 1979.5) - fixed red light, range 3 M, on the eastern end of the aforementioned cliff (obscured from 035 ° to 095 °); 3156 (E 1978) - light with green flashes, period 3 sec., Range 8 M, at the end of the Molo Ronciglio; 3162 (E 1980) - 2 vertical red fixed light headlight, range 2 M, on the head of the Sanità Dock.
